Overall Oral Health

Oral Score

This represents the overall health and quality of your oral, calculated from factors like strength, texture, shine and density.

Great Condition

80%

Oral Hygiene

Evaluates how clean your mouth looks overall, including teeth, gums, and tongue.

Moderate

6/10

Oral Health Breakdown

Gum Health

Indicates the strength and condition of your gums, including their ability to support and protect your teeth

Moderate

8/10

Tooth Decay Risk

Assesses how likely you are to have cavities or worn-down teeth based on visible dark spots or damage.

Low

7/10

Plaque Buildup

Checks for visible sticky deposits (plaque) on teeth surfaces that can lead to decay or gum disease.

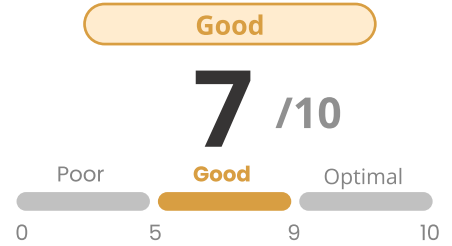

Slight

5/10

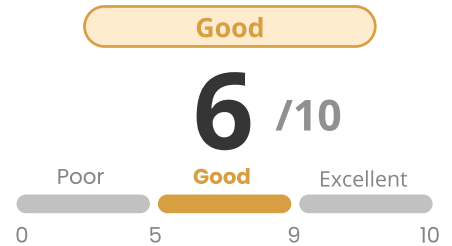

Tooth Alignment

Looks at how straight and evenly spaced your teeth appear, and if your bite seems aligned.

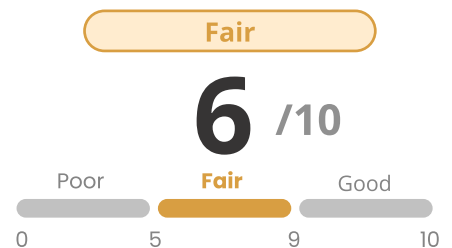

Oral Health

Evaluates how clean your mouth looks overall, including teeth, gums, and tongue.

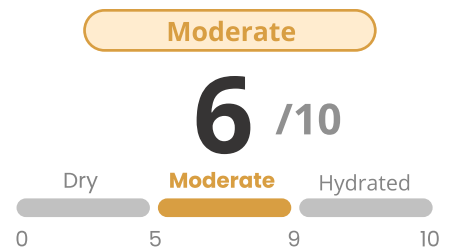

Gingivitis Risk

This score is based on the assessments you've completed. Offering a clear snapshot of your current health and fitness. Use it to track progress and target areas for improvement.

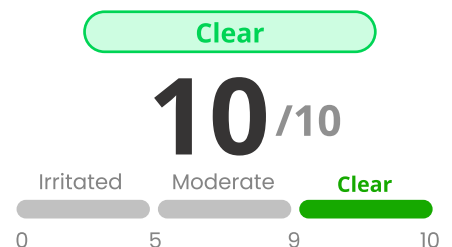

Tooth Discoloration

Measures how white your teeth look and the quality of the enamel's appearance-looking for stains or roughness

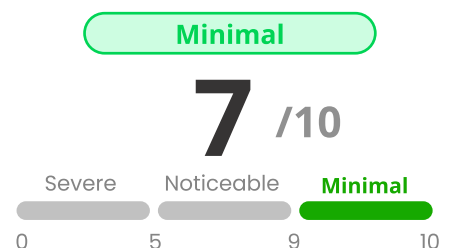

Mouth Ulcers

This score is based on the assessments you've completed. Offering a clear snapshot of your current health and fitness. Use it to track progress and target areas for improvement.

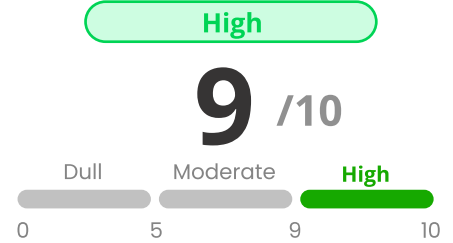

Tongue Health

Evaluates the color and cleanliness of your tongue, which can reflect your overall oral hygiene.

Tooth Wear Patterns

Looks for visible signs of wear like flattened tips, cracks, or chipped areas on your teeth.

Disclaimer

This assessment is only indicative and not necessarily a direct representation of your risk. This report is not diagnostic. If you have any concerns, then please seek guidance from a medical professional who may conduct a physical examination and conduct further diagnostic test as required.
